SECTION 4: First aid measures**4.1. Description of first aid measures****General information**

The first-aid measures refer to the contact with dust arising during the accidental destroying of the fire protection pad. Health injuries are not known or expected under normal use.

After inhalation

By the accidental destroying of the fire protection pad: Do not breathe dust. In case of inhaling dust (possibly caused by abrasion) the affected person should be moved into fresh air. In case of unwellness seek medical advice.

After contact with skin

Remove and wash contaminated clothing before re-use. Wash off with soap and plenty of water. Consult a doctor if skin irritation persists.

After contact with eyes

By the accidental destroying of the fire protection pad: Do not rub eyes - contains inorganic fillers, which irritate the eyes mechanically like other inert materials. Remove contact lens. Rinse thoroughly with plenty of water, also under the eyelids. Consult a physician.

After ingestion

By the accidental destroying of the fire protection pad: Rinse out mouth and give plenty of water to drink. Do not induce vomiting. Summon a doctor immediately.
