

## **GEAQUELLO® R 312 / R 380**

### **Retaining modules**

#### **Description**

Retaining modules used to build front walls for vertical and horizontal connectors. The modules serve as permanent formwork and spacers between cables and the connector wall. After installation the impregnation fluid GEAQUELLO® E 824 is applied to the modules, causing them to expand and become fire-retardant..

#### **Areas of Application**

- Ships & offshore
- Rolling stock
- In the sealing system GEAQUELLO® E 950
- In the sealing system GEAQUELLO® CPS
- In the sealing system GEAQUELLO® E 795

#### **Delivery and Packaging**

GEAQUELLO®	R380	R312
Packaging	container	container
Size	à 25 pcs.	à 360 pcs.
<b>Article number</b>		
	4148142	4148143

## **GEAQUELLO® R 312 / R 380**

### **Technical Data**

<b>Application instructions</b>	
<ul style="list-style-type: none"> <li>• The material can be trimmed to size using ordinary cutting tools such as scissors or cutter knives.</li> <li>• A module must be wrapped around each cable/pipe. This ensures that the sealing compound fills the complete penetration.</li> <li>• Vertical openings require one end wall, for horizontal openings two end walls are needed. After installation the impregnation fluid GEAQUELLO® E 824 is applied to the modules, causing them to expand and become fire-retardant.</li> </ul>	
<b>Product properties</b>	<ul style="list-style-type: none"> <li>• reacts neutrally</li> <li>• physiologically safe</li> <li>• not subject to hazard identification requirements</li> </ul>
<b>Measurements (l x w x h)</b>	<p>R 312: 120 x 25 x 4–6 mm</p> <p>R 380: 800 x 25 x 4–6 mm</p>
<b>Description</b>	retaining modules made of natural materials
<b>Form</b>	solid material
<b>Colour</b>	light yellow
<b>Appearance</b>	form stripes
<b>Storage</b>	cool and dry storage
<b>Safety instructions</b>	Consult the safety data sheet for additional instructions.
