Technical Data Sheet

PYRO-SAFE® B B 3 100

Fire Protection Board

Description

PYRO-SAFE® B B 3100 is a special insulating panel made of natural aluminium and calcium silicates. The material used is fibre-free and harmless to health. The panel offers highest heat resistance up to 1100°C.

Application Areas

- Module & system level
- Storage & transport
- On request

Delivery and Packaging

PYRO-SAFE® B B 3100	
Dimensions	$1000 \times 1000 \text{ mm} \pm 10 \%$
Thicknesses	1.0 mm to 6.0 mm; 8.0 mm; 10.0 mm or multilayer ±0.4 mm
	Special formats, cut-to-size or shaped parts are available on request
Article Number	
	on request

Technical Data Sheet

PYRO-SAFE® B B 3 100

Technical Data

Colour	Brown
Composition	Insulating panel made of aluminium and calcium silicates, consolidated by organic binders
Material structure	Solid panel material
Bulk density	960 kg/m³ (±10 %)
Moisture content	< 3 mass %
Thermal conductivity	0.120 W/mK
Storage	Stack max. 3 pallets on top of each other.
Safety information	Further information can be found in the safety data sheet.

Errors, misprints and changes reserved. All of the information corresponds to the state of technology and the version of the standard that existed at the time of printing (04/2021). We will gladly provide you with information on request regarding the legal and technical framework conditions or manufacturer specifications applicable to your individual case. © Copyright svt Products GmbH, Seevetal.
