Technical Data Sheet

SAERTEX LEO® COATED FABRIC

Fire Protection for Composite Materials

n co-operation with

Description

SAERTEX LEO® COATED FABRIC is a glass fiber fabric with an integrated intumescent fire protection coating, which forms an insulating layer in the event of a fire. This combination of lightweight construction with integrated fire protection can be incorporated into any construction of a monolithic or sandwich composite structure in order to meet the highest fire protection requirements.

Application Areas

- · Rolling stock
- · General industrial applications
- · Battery safety

Delivery and Packaging

| SAERTEX LEO® COATED FABRIC | | | | |
|----------------------------|---------------|--|--|--|
| Thickness | 0,8 mm–1,2 mm | | | |
| Length | 50 Ifm | | | |
| Width | 1270 mm | | | |
| Article Number | | | | |
| | on request | | | |

SAERTEX LEO® COATED FABRIC

Technical Data

| Article description (example) | Q-E-1933g/m2-1270mm LEO Coated | | | | |
|--|--|--------------|----------------------|--|--|
| Article construction (in accordance with EN 13473-1) | layer | construction | weight per unit area | | |
| | 5 | 0° | 319 g/m² | | |
| | 4 | 45° | 300 g/m² | | |
| | 3 | 90° | 307 g/m² | | |
| | 2 | -45° | 300 g/m² | | |
| | 1 | LEO Coating | 700 g/m² | | |
| | several standards available, more on request | | | | |
| Resin systems | multicompatible with most standard EP resin systems, other on request | | | | |
| Width (nominal) | 1270 mm | | | | |
| Processing | designed for use in closed molded applications (infusion, RTM, press molding etc.) | | | | |
| Total tolerance | approx. 7.4 % | | | | |
| Total area weight | 1221–1933 g/m² depending on variant | | | | |
| Start of reaction | approx. 150 °C | | | | |
| Thermal conductivity | (infused plate) 0.588 W/(m·K) | | | | |
| Approvals | on request | | | | |
| Labelling (standard) | Every roll is equipped with a label in the core. A further label is located outside on the foil or on the box. | | | | |
| Packaging (standard) | Every roll is wound on a cardboard core and wrapped in foil. Further packaging options can be determined individually. | | | | |
| Storage recommendation | Protect from moisture and direct sunlight. To avoid problems with humidity and electrostatic charge, fabrics must be conditioned 24 hours prior to processing, independent of storage conditions. | | | | |
| Safety information | Consult the safety data sheet for further information. | | | | |

SAERTEX® GmbH & Co. KG has been certified in accordance with ISO 9001:2015 and has been awarded the 2018 Eco-Profit Award. The SAERTEX® GmbH & Co. KG has its own DNV GL certified laboratory.
